

The Sheldon Milford Education Foundation is a nonprofit organization with a 501(c)(3) designation. All donations to the Sheldon Milford Education Foundation are tax deductible. The Foundation continues to provide and enhance the educational opportunities of the students at Milford Area Public Schools #124. The nine member board are as follows: Craig Cheever, Bruce Crist, Bill Decker, Dick Gooding, Tami Harwood, Craig Luke, Tim McEwen, Mary Ronna, and Sarah Swartzentruber.

In keeping with their goal to expand and support educational excellence, the Foundation continues to fund numerous projects. The teachers are given the opportunity to apply for mini grants in the fall and again in the spring. Some examples of recently funded mini grants include photo scanner, Spanish-language novel sets, document camera, anatomy enrichment tools, folding mats for physical education, green screen for school news programs, and a dramatic play center for preschool children. Additionally, the Foundation made possible the restoration of the grand piano, purchased the IXL math, language arts, and social studies site license for K-8 students, and netbook sleeves for students' Chromebooks.

The Foundation is very appreciative of all who have generously contributed; it is your continued support and generosity that enhances the education of the students.
