

Students and Parents: Recording of Meetings

It shall be the policy of Milford Area Public School District No. 124 to prohibit the audio- or video-recording of meetings conducted with any student or parent with any school staff member, except as otherwise provided in Policy No. 6:125 (“Students with Disabilities: Recording of Meetings”). The purpose of this policy is to ensure the uninhibited and free exchange of information regarding students, which the District believes would be hindered and quashed by the audio- or video-recording of meetings.

The policy shall not apply in certain limited circumstances when a recording is specifically required by law or district policy, including student disciplinary hearings conducted before the Board of Education. The Superintendent of Schools shall develop administrative procedures consistent with this policy to ensure that this policy is uniformly applied.
